About the Organizer

Trust Exhibition is a professional exhibition organizer established in 2002, with over 20 years of experience. We have accumulated data on one million global buyers, including 400,000 overseas buyers from 219 countries and regions.

The company focuses on expanding global business opportunities and enhancing brand influence for enterprises in China and worldwide. It owns renowned exhibition brands - SIGN CHINA, LED CHINA, DS CHINA, and PALS Asia, held in Shanghai, Shenzhen, and Guangzhou. Situated in China, the world's largest manufacturing hub, these exhibitions serve professionals from the global industry and attract buyers from over 100 countries.

Among the exhibitions, LED CHINA and SIGN CHINA are the most international trade platforms in LED and sign industries. For 14 consecutive years, both exhibitions welcome overseas buyers from over 100 countries and regions.

02 2024 Exhibition Overview

LED CHINA 2024 concluded successfully on February 26-28, 2024, at the Shenzhen Convention and Exhibition Center, Futian District. This one-stop procurement event centered around LED displays and featured a wide range of products such as LED video walls, lighting, sound systems, stage equipment, AV system integration, commercial displays, digital signage, VR/AR, digital humans, LED Lighting and signage. It provided comprehensive audiovisual solutions for various sectors including advertising, entertainment, sports, broadcasting, and smart city planning. The exhibition also hosted several high-quality industry forums.

The three-day exhibition welcomed 40,060 professional buyers from 112 countries and regions, a 30% increase compared to the previous year (30,901 buyers in 2023). Among them were 35,869 domestic buyers and 4,191 overseas attendees, representing a significant 246% growth in international buyers compared to the previous year (1,211 buyers in 2023). LED CHINA returned as the industry's first exhibition of the year in China, celebrating its 19th anniversary. It has maintained its position as one of the top global brand events in the industry, attracting buyers from over 100 countries for 14 consecutive years and gaining recognition worldwide.

05 Exhibitor Comments

Yang Qingnan, Regional Manager of Foreign Trade Center of XIAMEN QIANGLI JUCAI OPTO-ELECTRONIC TECHNOLOGY CO., LTD.

During the exhibition, we received a lot of new customers and old friends. We also saw a lot of new technology and new products. We will continue to participate in such an excellent exhibition.

Zhang Jun, President of SHENZHEN GUOJIA OPTO TECHNOLOGY CO., LTD.

We hope that we can promote the brand of GUOJIA OPTO and our products to the world through LED CHINA, so that more buyers around the world will know more about China, and our Chinese products will be sold to every corner of the world.

Wang Zhiyong, Business leader of SHENZHEN MENPAD TECHNOLOGY GROUP CO., LTD.

The most notable feeling of these two days is the obvious increase in the number of overseas buyers compared to last year. About 80% of our customers are overseas buyers, maybe even more, and we are very happy with the growth of overseas customers this year. Since July last year, we have gained a lot of quality overseas customers, including those from Spain, Japan and the Middle East. LED CHINA is very helpful for customer development, so we will continue to participate in it!

Wang Wenping, General Manager of SHENZHEN SHOWTECHLED CO., LTD.

This is our fifth time to participate in LED CHINA. The exhibition has a significant flow of people overall, because today we see a lot of old friends from abroad. At the same time, we also see a lot of new foreign friends joining us, especially from countries where along the Belt and Road.

Song Hongqin, Sales General Manager of SHENZHEN WANGUO DIGITAL TECHNOLOGY CO., LTD.

We have participated in LED CHINA for several consecutive sessions, and each time the harvest is full. LED CHINA has helped our products enter the international market and brought good benefits, so we will not miss to participate in this exhibition.

Shi Feng, Director of Market Development Department of CHAINZONE TECHNOLOGY (FOSHAN) CO., LTD.

LED CHINA is a professional exhibition in LED display industry, which attracts a lot of professional overseas and domestic suppliers and customers. Over the years, Trust Exhibition has made significant efforts in promoting their exhibitions internationally, so there are a lot of overseas buyers coming to the exhibition. The buyers who come to our booth can be said to be endless, I hope we can be a more permanent partner.

06 Exhibitor Comments

This is the first time for our company to participate in this exhibition, and we saw a lot of high quality products. We have participated in the organizer's SIGN CHINA a few times before, but the focus of the two exhibitions was different, and this time we were very surprised.

Buyer from Melbourne, Australia

LED CHINA was the first show I attended in China. In terms of value and technology, screens made in China are beyond the reach of manufacturers from other countries. Therefore, I purposely came to learn more about LED display and solid mount LED screen products.

Buyer from Canada

The technologies presented by LED CHINA exhibitors are very innovative. As an entrepreneur, I hope my products to leave a deep impact on my customers, which requires new technologies. The new technologies presented by the exhibitors at LED CHINA can only be seen in Shenzhen, China, so I attend LED CHINA every year.

Buyer from Burundi, East Africa

We read online that LED CHINA is a show that converge new products in the industry, so a few of us came together to visit. We saw many LED, AR, and VR products that are not available in the Philippines, talked to many excellent Chinese manufacturers, and have made plans on which products to purchase.

Buyer from the Philippines

We believe that LED CHINA is the largest exhibition for the industry in China, which helps us to expand our business and market.

Buyer from Italy

The LED market in China is very large. LED CHINA is the first exhibition I have attended in China. The reason I chose it is because I can find good quality hotel LED displays here, and some other products are also very good.

Buyer from New Delhi, India
